

Supply Chain mapping, identification and risk assessing of labour exploitation/human rights abuses and possible routes to remedy.

A 1 day training course for professionals interacting with supply chains and large work forces especially roles in CSR, Technical, Procurement and Human Resources

This 1 day course breaks complex concepts around modern slavery and human rights abuse into bitesize modules using group exercises, discussion and videos to ensure energetic learning and questioning.

Over the day the following topics will be covered:

- Legislation – what is required by the Modern Slavery Act 2015
- The UN Sustainable Development Goals
- How Goal 8 and target 8.7 relate to the MSA
- Identifying your stakeholders
- A Modern Slavery/Human Rights approach to:
 - Policy, Process, Practice and
 - People in your business and supply chains
- How to approach:
 - “Buy in” from stakeholders
 - Cross functional involvement and implementation
 - Supply chain mapping
 - Risk assessing
 - Remedy
 - Measuring success and progress
 - Ensuring continuous improvement
- Identifying gaps in your organisation’s activity, capacity and capability around Modern Slavery and Human Rights
- A SMART action plan to move learning from the training course into your working routines.

Graduates of this course benefit greatly from our 2 day course on “Facilitating complex conversations”.
